Structures for Equalitree

- legal rights for nature (beyond humans): rethink r/ship
- radical changes/alternatives to capitalist systems
- kinship care of children from racialised comms.
- community-based + consent-based systems of youth accountability (f*#k the police, gently)
- self-defined nationhood + citizenship
- communities that are also political sustenance
- sustainable community (not individualised) resilience
- localised stewardship networks
- critical social movements
- #constellations #dismantle the system
- non-heirarchical* knowledge transfer systems → eg healing + medicine that is not formalised, monetised.
- youth leadership + engagement
- artist collectives
- anyone beyond productive years
- f*#k gender norms (eg family structures)
- treaty-based international ism
